Dr. Bartellot made a brief and appropriate address, setting forth the objects of the exposition, the progress of the preparations and the desire of the people of the United States that the Argentine Republic may be adequately represented.

President Pellegrini, in replying, congratulated the United States upon the progress of the preparations for the exposition and authorized Dr. Bar-United States and the management of the exposition that the Argentine republic would be fitly represented. The newspapers of Beunos Ayres are showing a great deal of interest in the affairs of the exposition and are urging the government to provide such a representation of the resources of the Argentine Republic as will secure the attention of capitalists in this country. The Buenos Ayres Herald, in an editorial reference to the presentation of Dr. Bartellot, says: "The Argentine government and the people are passing through difficult times, but there can be no doubt whatever that the part we shall take in the exposition will be a revelation to our cousins of the north and will be far more complete even than our contribution to the Paris exposition.

The Boyd-Thayer Contest.

of this city says: "It having been positively stated that Ex-Attorney Gener-Governor Boyd of Nebraska to argue his case before the supreme court of the United States, has advised Governor Boyd that there was no question but that he would ultimately regain his seat." The Gazette asked Mr. Garland if he had given such advice.

"You must excuse me from expressing an opinion for publication," said Mr. Garland. "I refer you to my client, Governor Boyd."

There was a strong emphasis on the "governor," which was the only indication of the distinguished lawyer's opinion. Governor Boyd, however, is not so reticent. In reply to an inquiry propounded him, he affirms that he not only has no doubt himself of a reversal of the decision of the court against him on appeal, but that Mr. Garland has said that there will be no trouble in regaining his seat."

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical traternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, act ing directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the consti tution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Thousand Dollars for any case that it fails to cure. Send for list of testimonials. Address F. J. The Way of the World.

It is surprising how early the child learns the way of the world. Fiveyear-old Edith went to bed one night with a good-by kiss for papa, who was to go away early next morning on a long business trip. The next day her mama said: "We must pray for papa while he is gone, and ask God to take care of him." "So the train won't run off and kill him?" asked Edith. "Yes," replied mama; "what would we do if papa should get killed?" "We'd cry, that's what," said the little maiden. and then we'd get married again and have another papa."-Housekeeper's
